

Honorable Housing Committee:

I am writing to oppose proposed bill SB 105: Tenant's right to housing.

A fair society has to be built upon the balance of responsibilities and rights from ALL parties. Delaying eviction process and using tax payer's money to provide legal assistance to those who ignore their responsibilities as a tenant is an insult to and a deprivation of the right of those tenants who dutifully respected the lease and the rental properties; it is a violation of property right; and an example of big government abuse of law-abiding taxpayers.

Please stop this bill.

Thanks

Luthein
